PRODUCT OVERVIEW

The ARC-TIP profile is a sleek and functional flush tile-in LED profile designed to integrate LED strip lighting seamlessly into tiled surfaces. With an internal channel sized at approximately 12.3 mm, it is compatible with a wide range of LED strip lights and delivers a refined, continuous lighting effect that enhances both aesthetic appeal and functionality.

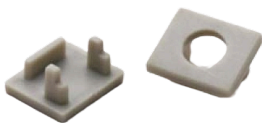

Manufactured from durable aluminium and finished in a stylish silver anodised coating, the ARC-TIP profile combines modern design with long-lasting performance. Its flush tile-in configuration allows it to sit level with surrounding tiles, creating a clean, professional appearance that is ideal for contemporary interior spaces.

Elegant in its simplicity and robust in its construction, the ARC-TIP 2 Metre Flush Tile-In LED Profile in silver is a versatile solution for integrated LED lighting that enhances the ambience and design of any tiled environment.
