

ARCHITECTURAL LIGHT SERIES

Mini Down Lights · Marker Lights · Stair Lights · Ground Lights

The smallest fittings do the quietest work. From subtle down lighting to markers, stairs and ground lighting.

THE TERRA RANGE

CONTENTS

THE RANGE

Seventy-four fittings across four families, from 12mm markers to 60mm ground lights.

MARKER LIGHTS

Low level fittings from 12mm to 45mm for walls, plinths, skirtings and corridors.

GROUND LIGHTS

Walk-over rated 316 stainless, IP67, from the 16mm Terra Micro to the 60mm Terra 7.

MINI DOWNLIGHTS

Anti-glare, fluted and trimless apertures from 35mm to 68mm, CRI97+.

STAIR LIGHTS

Twelve fittings for stair risers and steps, IP20 through to walk-over rated IP67.

MATERIALS/ FINISH

Powder coated, brass and bronze, aluminium and stainless. Seven finishes across the range.

THE RANGE AT A GLANCE

Seventy-four fittings across four families, from a 12mm marker to a 60mm ground light. Anti-glare downlights for ceilings and joinery. Low level markers for walls, plinths and corridors. Stair lights, trimmed and trimless. Walk-over rated stainless for outside.

Built to Sit Together

Seven finishes run across the range - textured white and black, satin and antique brass, bronze, brushed aluminium and 316 stainless - so a scheme holds one language from the ceiling to the ground. Cut-outs from 12mm to 68mm. IP20 through IP67. CRI90 to CRI97+.

Every Fitting Has a Driver

Every fitting here is low voltage. Each one needs to be paired with a driver we'd specify ourselves - constant voltage or constant current, non-dimmable through TRIAC, 0-10V and DALI.

MINI DOWNLIGHTS

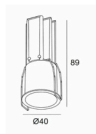

Mini downlights do the work you notice least. A 35mm anti-glare aperture over a worktop, a trimless pinhole in a plaster ceiling, a fluted 50mm throwing light down a wall. Deep-set optics keep the source out of your eye line, and CRI97+ light sources show timber, fabric and skin as they actually are.

Auralis

Product Code: AURA

Auralis is the anti-glare downlight the range is built around. A deep-set 35mm aperture keeps the source out of your eye line, and CRI97+ shows timber, fabric and skin as they actually are. 7W on 350mA, in five finishes.

Cut-out	35mm
Power	7w / 350mA
Ingress Protection	IP20
Colour Rendering	CRI97+
Colour Temperature	2700K / 3000K
Driver Required	Osram 350mA, TRIAC or DALI

AVAILABLE FINISHES

Orvella

Product Code: ORV

Orvella takes the same 35mm aperture and CRI97 output as Auralis and flutes the inner face. The ridges catch the light and give the aperture some depth of their own, so the fitting reads as a detail rather than a hole in the ceiling. 7W on 350mA, in five finishes.

Cut-out	35mm
Power	7w / 350mA
Ingress Protection	IP20
Colour Rendering	CRI97+
Colour Temperature	2700K / 3000K
Driver Required	Osram 350mA, TRIAC or DALI

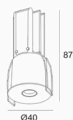

AVAILABLE FINISHES

Fino

Product Code: FIN

Fino narrows the aperture to a pinhole. Same 35mm cut-out and CRI97 output as Auralis, but the visible opening is smaller still a tight beam and almost nothing to see from below. 7W on 350mA, in Textured White or Black.

Cut-out	35mm
Power	7w / 350mA
Ingress Protection	IP20
Colour Rendering	CRI97+
Colour Temperature	2700K / 3000K
Driver Required	Osram 350mA, TRIAC or DALI

AVAILABLE FINISHES

MINI DOWNLIGHTS

CORE 45

Product Code: CORE-45

Cut-out	45mm
Power	3W / DC24V
Ingress Protection	IP65
Colour Rendering	CRI90+
Colour Temperature	2700K / 3000K / 4000K
Driver Required	Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

SORA FLUTED

Product Code: SORA

Cut-out	50mm
Power	10W / 500mA
Ingress Protection	IP54
Colour Rendering	CRI 97+
Colour Temperature	2700K / 3000K
Driver Required	Non-dimmable or TRIAC

AVAILABLE FINISHES

KIRO TRIMLESS

Product Code: KIRO

Cut-out	45mm
Power	7w / 350mA
Ingress Protection	IP20
Colour Rendering	CRI97+
Colour Temperature	2700K / 3000K
Driver Required	Osram 350mA, TRIAC or DALI

AVAILABLE FINISHES

NIVO TRIMLESS

Product Code: NIVO

Cut-out	68-70mm
Power	7w / 350mA
Ingress Protection	IP54
Colour Rendering	CRI97+
Colour Temperature	2700K / 3000K
Driver Required	Osram 350mA, TRIAC or DALI

AVAILABLE FINISHES

MINI DOWNLIGHTS

CETO 60

Product Code: CETO-60

Ceto opens the aperture to 60mm, the largest in the mini range, delivering CRI97+ performance from a compact 7W fitting. With an IP54 rating, it combines high-quality light output, a discreet form and added protection for a wider range of interior applications.

Cut-out	60mm
Power	7w / 350mA
Ingress Protection	IP54
Colour Rendering	CRI97+
Colour Temperature	2700K / 3000K
Driver Required	Osram 350mA, TRIAC or DALI

AVAILABLE FINISHES

Textured White

YACHT

Product Code: YACHT

Yacht is the fitting for spaces where the air is wet and the ceiling is close. A 45mm anti-glare aperture at 7W and 24V, rated IP65 specified for marine interiors, bathrooms, shower zones and covered outdoor soffits. Deep-set optics keep the source out of your eye line at close quarters.

Cut-out	45mm
Power	7W / DC24V
Ingress Protection	IP65
Colour Rendering	CRI92+
Colour Temperature	2700K
Driver Required	Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

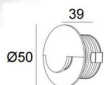

Textured White

MARKER LIGHTS

Textured White and Textured Black are powder coated and recommended for interior or exterior positions. Satin Brass, Antique Brass, Bronze and Brushed Aluminium are intended for interior use only. In exposed or coastal environments these finishes will tarnish.

HYDRIS

Product Code: HYD

Hydris is the marker for outside. At 40mm it takes the most light of any fitting in the range, and IP67 means it holds up to driven rain and standing water a garden wall, a step edge, an exposed terrace. One watt at 24V, in all six finishes.

Cut-out	40mm
Power	1W / 24V
Ingress Protection	IP67
Colour Rendering	CRI 92+
Colour Temperature	2700K / 3000K
Driver Required	Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

AUREA

Product Code: AURE

Aurea is the marker most schemes start with. At just 32mm, it sits discreetly within a wall or plinth, while its IP65 rating provides added protection for a wide range of applications. Operating at just 1W on 24V, it is available in all six finishes.

Cut-out	32mm
Power	1W / 24V
Ingress Protection	IP65
Colour Rendering	CRI 92+
Colour Temperature	2700K / 3000K
Driver Required	Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

LUXON

Product Code: LUX

Luxon shares the 32mm aperture and IP65 rating of the Aurea, with its own face. One watt at 24V, CRI92, in all six finishes Textured White and Black, Satin and Antique Brass, Bronze and Brushed Aluminium.

Cut-out	32mm
Power	1W / 24V
Ingress Protection	IP65
Colour Rendering	CRI95+
Colour Temperature	2700K / 3000K
Driver Required	Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

MARKER LIGHTS

Textured White and Textured Black are powder coated and recommended for interior or exterior positions. Satin Brass, Antique Brass, Bronze and Brushed Aluminium are intended for interior use only. In exposed or coastal environments these finishes will tarnish.

VERO

Product Code: VERO

Vero shares the compact 32mm aperture and IP65 rating of Aurea and Luxon, delivering efficient 1W performance at 24V with a high-quality CRI92 light output. Available in all six finishes for a consistent, refined look across the range.

Cut-out	32mm
Power	1W / 24V
Ingress Protection	IP65
Colour Rendering	CRI 92+
Colour Temperature	2700K / 3000K
Driver Required	Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

AUREO

Product Code: AUR

Aureo drops the aperture to 18-22mm small enough to disappear into a riser, a plinth or a tight reveal where a 32mm marker would dominate. One watt at 24V, CRI90, rated IP44. In all six finishes.

Cut-out	18-22mm
Power	1W / 24V
Ingress Protection	IP44
Colour Rendering	CRI 90+
Colour Temperature	2700K / 3000K
Driver Required	Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

NIVARA

Product Code: NIV

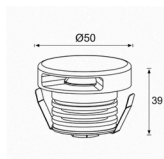

Nivara is twelve millimetres across about the size of a pencil end. Set into a riser or a plinth it reads as a point of light rather than a fitting, which is the whole idea. One watt at 24V, CRI90, rated IP44, in all six finishes.

Cut-out	12mm
Power	1W / 24V
Ingress Protection	IP44
Colour Rendering	CRI 90+
Colour Temperature	2700K / 3000K
Driver Required	Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

Stair Lights

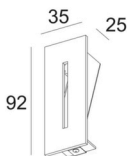

STEP A

Product Code: STEP A

Stepa is a compact, fixed-output stair light designed for clean, consistent illumination. With a 40mm aperture, 2W output and 24V operation, its IP67 rating provides excellent protection across a wide range of installations.

Cut-out	40mm
Power	2W / 24V
Ingress Protection	IP67
Colour Rendering	CRI92+
Colour Temperature	2700K / 3000K
Driver Required	Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

LUMINIS

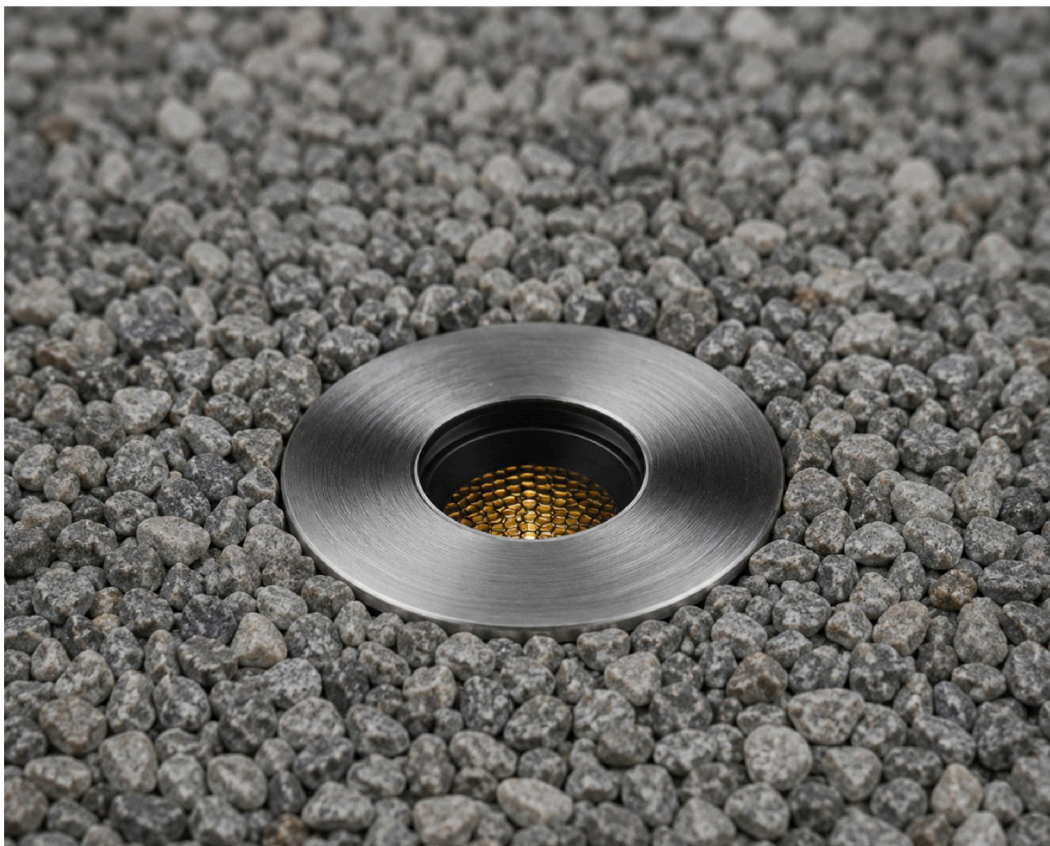

Product Code: LUM

Luminis is a refined choice for interior stairways, hallways and feature lighting. With a 45mm aperture, 2W output and 24V operation, it delivers high-quality CRI90 illumination in a compact format.

Cut-out	80×32mm
Power	2W / 24V
Ingress Protection	IP20
Colour Rendering	CRI90+
Colour Temperature	2700K / 3000K
Driver Required	Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

TERRA

IN-GROUND LANDSCAPE LIGHTING

316 STAINLESS STEEL - IP67 - 24V

A refined range of in-ground spot lights crafted from 316 stainless steel for exceptional durability and corrosion resistance. Built to perform in the most demanding outdoor environment while delivering clean, architectural lights effect.

BUILT INTO THE LANDSCAPE.

THE TERRA RANGE 316 STAINLESS

TERRA MICRO

Terra Micro is a 16mm point of light set flush into the ground. IP67 in 316 stainless, it marks the edge of a path or a step without putting a visible fitting anywhere in the landscape. One watt at 24V.

Cut-out	16mm
Power	1W / DC24V
Ingress Protection	IP67
Colour Rendering	CRI90+
Colour Temperature	2700K

Driver Required Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

316 Stainless

Product Code: TERRA-MIC

TERRA MINI

Terra Mini takes the same 1W output as the Micro and doubles the aperture to 34mm - visible enough to read as a deliberate detail rather than disappearing into the paving. 316 stainless, IP67.

Cut-out	34mm
Power	1W / DC24V
Ingress Protection	IP67
Colour Rendering	CRI92+
Colour Temperature	2700K

Driver Required Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

316 Stainless

Product Code: TERRA-MINI

TERRA 3

Terra 3 is where the range stops marking and starts lighting. A 49mm aperture at 3W - three times the output of the Micro and Mini - putting usable light on a path, a planted bed or the base of a wall. 316 stainless, IP67.

Cut-out	49mm
Power	3W / DC24V
Ingress Protection	IP67
Colour Rendering	CRI92+
Colour Temperature	2700K

Driver Required Constant Voltage, Triac Dimmable

AVAILABLE FINISHES

316 Stainless

Product Code: TERRA-3

TERRA 7

Terra 7 is the one you specify when the light has to reach. A 60mm aperture at 7W - seven times the output of the Micro - for uplighting a tree, washing a facade or covering a wide run of driveway. 316 stainless, IP67.

Cut-out	60mm
Power	7W / DC24V
Ingress Protection	IP67
Colour Rendering	CRI92+
Colour Temperature	2700K

Driver Required Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

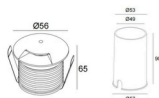

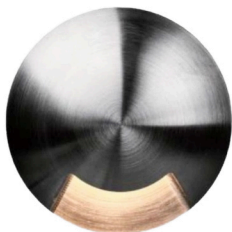

316 Stainless

Product Code: TERRA-7

THE DOCK RANGE 316 STAINLESS

Dock is 49mm with 316 stainless body, with its round, eyelid, louvre, horizontal slot or vertical slot apertures - So a stair, a path and a retaining wall can share a detail while throwing light in different ways. Rated IP67 and walk-over, at 3W and 24V.

DOCK ROUND

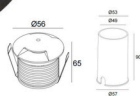

Product Code: DOCK-R

Cut-out	49mm
Power	3W / 24V
Ingress Protection	IP67
Colour Rendering	CRI92+
Colour Temperature	2700K
Driver Required	Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

316 Stainless

DOCK EYELID

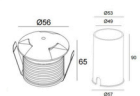

Product Code: DOCK-E

Cut-out	49mm
Power	3W / 24V
Ingress Protection	IP67
Colour Rendering	CRI92+
Colour Temperature	2700K
Driver Required	Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

316 Stainless

DOCK LOUVRE

Product Code: DOCK-L

Cut-out	49mm
Power	3W / 24V
Ingress Protection	IP67
Colour Rendering	CRI92+
Colour Temperature	2700K
Driver Required	Non-dimmable, TRIAC, 0-10V or DALI.

AVAILABLE FINISHES

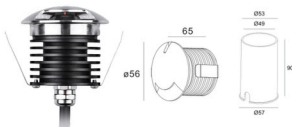

316 Stainless

216 Staples

316 Stainless

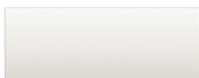

Product Code: DOCK-V

MATERIALS / FINISH

Every finish in the range is applied to precision-machined bodies, so a scheme can move between a mini down light, a marker and a ground light without the detail changing. Powder coated, brushed or solid - chosen for how they hold their tone, not just how they photograph.

POWDER COATED

A textured coating applied over machined aluminium. Matt and hard-wearing, with no reflection to catch the eye. Recommended for interior or exterior positions.

TEXTURED WHITE

TEXTURED BLACK

BRASS & BRONZE

Warm metallics with a brushed surface. They hold their tone under warm light. Interior use only in exposed or coastal environments these finishes will tarnish.

SATIN BRASS

ANTIQUÉ BRASS

BRONZE

ALUMINIUM & STAINLESS

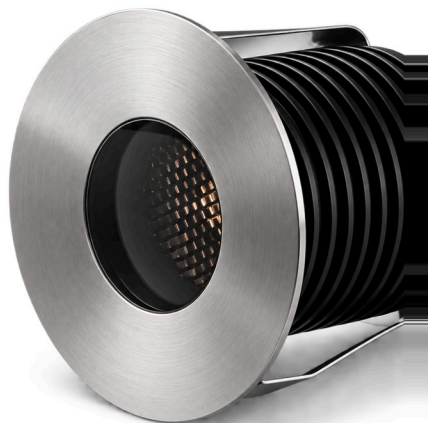

Brushed Aluminium is a cool interior metallic. 316 stainless is marine grade - specified where salt, chlorine or standing water are in play.

BRUSHED ALUMINIUM

316 STAINLESS

Not every finish is offered on every fitting. The marker and stair ranges carry the widest choice, available in all six coated and metallic finishes, the in ground range is 316 stainless throughout.

Each product page shows the finishes available.
